**ARCHIPELAGO HONEYCOMB SEA SPONGES
FROM THE MEDITERRANEAN SEA**

**The Mediterranean Archipelago Honeycomb
are selected in three qualities:**

> **EXTRA** (art. "BA")

Best quality, nearly perfect rounded (naturally shaped)

> **FIRST** (art. "BB")

First quality, shaped with scissors

> **SECOND** (art. "BC")

Second quality, not regularly shaped

And in two kinds:

> **NATURAL COLOR** (from a slight honey tone to a hazelnut shade)

The purified sponges are normally for toiletry and professional use (like dye manufactories, fine arts paintings, ceramists)

> **BLEACHED** (a light yellow colour)

The sponges are treated with a gentle oxidation.

FEATURE:

With medium size pores, these sponges give you a wonderful feeling of softness and pleasantness

USE:

For your personal hygiene and for the beauty of your body. A luxury item also for decoration of your bathroom, swimming pool, etc.

NATURAL ECOLOGICAL PRODUCT sanitary product, neutral, high quality, long lasting.

Instructions for use:

Carefully rinse the sponge after use to avoid soap residues or detergents that will erode the tissue and cause the sponge to become slimy and weak. Do not use hot water and let the sponge dry in a well-aired place

There are many good reasons to choose a natural sponge:

- > The skin may be cleaned in depth
- > It is an ecologically renewable resource and a non-allergenic product
- > Its use is recommended for sensitive skins by dermatologists
- > Its use reduces the consumption of bubble bath and bath foam
- > Nothing else feels as pleasant on your skin
